

2016 Capital Project Planning and Advisory Committees

Building Advisory Committee (BAC)

Members include:
 Superintendent Stephen Tomlinson
 Architects Randy Collins and Bryan Manning, CSArch
 Board of Education representative
 School Business Administrator Marco Zumbolo
 Director of Operations & Safety Mike Carney
 Communications Specialist Michele Kelley
 Members of the district leadership team as needed

Role of the BAC

Members of the BAC will review the recommended capital project needs and wants from the CAC, financial and regulatory information, as well as feasibility. The BAC will recommend the final scope and scale of the capital project for approval by the Board of Education.

Role of the Internal Facilities Subcommittees

During their scheduled meetings, faculty and staff will have an opportunity to discuss and provide feedback about capital project needs and wants specific to their areas of expertise. Members of each subcommittee will receive a questionnaire in advance of their meetings on which they may provide specific, written feedback.

The capital project needs and wants of all internal facilities subcommittees will be forwarded to the community advisory committee for review and next steps.

Community Advisory Committee (CAC)

Members include:
 Parent and student representatives from the 2028 Task Force;
 representatives from the internal facilities subcommittees; and
 representatives from the PTO, BPEF, Sports Boosters, BYC and the arts.

Role of the CAC

In advance of the scheduled meeting, members of the CAC will receive a written summary of all of the capital project needs and wants identified by the internal facilities subcommittees. During their meeting, CAC members will be asked to discuss these ideas, taking into consideration what the larger B-P community will be likely to support, before forwarding their recommended needs and wants to the building advisory committee for review and next steps.
